

The future of Health Care: SimpleCare

A NEW CONCEPT IN PRIVATE HEALTH CARE THAT GIVES YOU MORE CONTROL OVER YOUR HEALTH, YOUR CHOICES AND YOUR EUROS.

Consumers deserve to know the quality and cost of their health care and when purchasing private medical care it's essential to choose a plan that not only meets your needs but also is available at the best price. SimpleCare provides just that, a low-cost, high quality scheme that allows consumers to gain access to the health care they need without the exclusions, limitations, and paperwork typically associated with health insurance. If you are suffering from a medical condition and can not get insurance, SimpleCare will not exclude you. In fact, your medical history is of no concern to them. You can enroll in the plan and get affordable care immediately. And even better, the monthly premium is nominal.

HOW CAN YOU BENEFIT WITH A SIMPLECARE HEALTH PLAN?

SimpleCare has created an affordable private health care plan to help bridge the gap for consumers burdened by the increasing cost of healthcare by providing opportunities to directly obtain healthcare services at reduced rates.

♥ **ACCESS:** SimpleCare gives members immediate access to a network of world-class medical professionals, state-of-the-art hospitals and clinics for both out-patient and in-patient procedures.

♥ **Affordability:** While insurance rates have increased at double-digit rates over the past 12 years, SimpleCare rates stay the same every year, no monthly premium increases as you get older.

♥ **Savings:** Those with limited insurance, the under-insured, and insured individuals with high deductibles can reduce out-of-pocket expenses and receive reduced fees for services not normally covered by insurance.

♥ **No exclusions:** SimpleCare offers no exclusions for pre-existing conditions, no age limits and no exclusions for chronic health conditions.

♥ **Convenience:** SimpleCare have a network of hospitals and clinics with over 2,000 specialist. You can choose to receive treatment from any hospital, clinic, or legally qualified medical practitioner in the SimpleCare Network. Plus, no long waiting lists.

SO HOW DOES SIMPLECARE'S HEALTH PLAN OFFER SUCH BENEFITS?

SimpleCare is a large US-based company, which enables its members to gain access to reduced rates that are usually only available to major insurance companies. The difference is that instead of financing the medical expenses of members by charging high monthly premiums, which is the case in health insurance companies, SimpleCare patients pay for medical

care at the time of service. This cuts out the morass of administrative paperwork, allowing providers to slash their fees, giving the patient a cost saving of 40-70% directly at the time of service.

WHAT TYPES OF SERVICES ARE TYPICALLY INCLUDED IN SIMPLECARE'S HEALTH PLAN?

SimpleCare offers a comprehensive package that includes doctors, specialists, ancillary care (labs, scans, hearing, etc.), dental, vision care and cosmetic surgery. They also offer in addition to their Health Plan: health assessments, lifescans to reduce the risk of undetected disease, diabetic care and predictive medicine via genetic testing.

HOW DO YOU BECOME A MEMBER OF SIMPLECARE?

Signing up for a card is easy. You can simply apply online at www.simplecarehealthplan.com, pay a nominal yearly premium, and you will receive your membership card within a couple of weeks.

WHAT IF I ALREADY HAVE HEALTH INSURANCE?

Even if you already have private medical insurance, SimpleCare's Health Plan could save you up to 70% on services not covered due to pre-existing or chronic conditions not covered by your plan. In fact, your SimpleCare Health Plan can fill the gaps that your current cover, NHS or SAS will not cover. For example, where there may be exclusion of treatment due to a previous chronic medical condition, age related, dental work, opticians or cosmetic surgery. Our membership will give you access to prestigious private medical services at affordable rates. SimpleCare can help patients who have no medical insurance, have insurance with a high deductible and pay most costs out-of-pocket, or have insurance that doesn't cover certain procedures.
